Class Day - AimPoint System and Aiming Drills. The green reading started with the simple concept of uphill and downhill putts. On a simple planar green there will be two putts that are straight: one uphill and one downhill. As you move away from those straight putts, putts will break. The further away, the more break.

AimPoint Golf - Ultimate Green Reading Tool (REVIEW)

A sure way of reading greens can be determined by the speed of the green, the degree of the slope, the position that the ball sits on the slope, the length of the putt and sometimes the grain of the grass. The faster the green, the more break a golfer will need to play, as there is little friction to stop the ball from breaking.

Green Reading Made Simple - Try These Methods - YouTube

Aimpoint Express is a tour-proven green reading methodology (hint: Adam Scott) that allows a golfer to read greens using their feet to determine the slope percentage of a given putt. I would generally recommend the system more for linear putters, but the system can be beneficial for non-linear putters if using to practice green reading

Caddy Training - AimPoint Golf

Aimpoint Green Reading will tell you exactly where that is. After that, here is what I would like you to do: From behind the ball, clear mental rehearsal of your putt rolling down your line to your AIMpoint (rarely the hole). If you do a practice stoke (I do not) I would suggested it being behind the ball while you focus on your AIMpoint.

AimPoint is the source of the technology that enabled The Golf Channel to draw the green (or blue) line. Determining the line took gravity and friction into account, not those myths we talked about earlier. Personally, I enjoyed watching the balls follow the line into the cup, or lose the line and miss.
