The National Building Code – 2019 Alberta Edition is based on the National Building Code of Canada 2015. It establishes design and construction standards, including barrier-free access in new buildings and energy efficiency for housing and small buildings. It also applies to the alteration, change of use and demolition of existing buildings.

National Building Code – 2019 Alberta Edition, NBC(AE)

Changes under the 2020 National Building Code (Alberta Edition) made BILD Alberta's Tall Wall Guidelines non-compliant with current code. BILD Alberta's Provincial Residential Technical Committee attempted to have the Tall Wall Guidelines updated but engineering firms were unwilling to certify a new document.

Critical measurements such as standard stairway width, riser height, and tread depth are not a matter of guesswork when you are remodeling or building a home. Staircase measurements are determined by common practice and by building code, which itself is often informed by generally approved practices. These rules are aimed at making staircases as safe as possible, so they should never be ignored ...
