### Botnets The Killer Web App by Underward 655321 - Issuu

Botnets Overview of tool. Modern botnets are being fielded that are organized like real armies,with divisions of zombies controlled by different bot servers.The botherder controls a set of bot servers, which in turn each control a division of zombies.That way, if a communications channel is disrupted, only one division is lost.The other zombie divisions can be used to retaliate or to continue to conduct business.
