Foxeer offers two camera sizes for the Predator camera, the Mini and the Micro. To my understanding the two variants uses the same hardware from image sensor to processor, and should produce the same image quality. Foxeer Predator Micro FPV Camera The main differences are the size,

weight, mounting and the lens.

**Review: Foxeer Predator Mini FPV Camera - Oscar Liang**

Foxeer has been my favorite camera for a while. Now they have really upped the ante. This camera has all the latest tech. Auto light changing, remote control, and WDR. But the best new feature is the switchable aspect ratio. For years pilots had to choose between the two, 16:9 for wider view or 4:3 for better detail.
