economic historians. This is the first Gideon ...

Bob Allen: Global Economic History -- A Very Short Introduction, Clip 1 of 4

• Global investors and traders imposed the gold. • The autarkies turned away from international competition and toward the use of national resources to meet the national demands - this led to a cascade of measures to reinforce economic nationalism from Japan to Portugal and from Brazil to Germany.

Important Events in the history of Global Economics ...

'The Industrial Revolution' shows that the period from 1760 to 1850 was a turning point in world history, for it inaugurated the era of sustained economic growth. Technological change was the motor of the Industrial Revolution, but why did it happen in England rather than the Netherlands, France, China or India? Britain's high-wage, cheap-energy economy made it profitable for British firms ...

3. The Industrial Revolution - Very Short Introductions

In 1500, the income differences were small, but they have grown dramatically since Columbus reached America. Since then, the interplay between geography, globalization, technological change, and economic policy has determined the wealth and poverty of nations. The industrial revolution was Britain's path breaking response to the challenge of globalization.
