A new Pentagon assessment of Chinese military power states it has outstripped the US in numbers of warships, land-based missiles and air defence systems. The news comes as a blow to US national pride. "Frankly, America slept while China grew," US Secretary of State Mike Pompeo said yesterday.

China's military power has outstripped the US, Pentagon ...

Although China continues to lag the United States in terms of aggregate military hardware and operational skills, it has improved its relative capabilities in many critical areas. To advance the public debate, RAND used open, unclassified sources to compile The U.S.-China Military Scorecard: Forces, Geography, and the Evolving Balance of Power. This comprehensive report examines U.S. and Chinese military capabilities in ten operational areas, and presents a "scorecard" for each.

April 20, 2018 14:20:42 EST. It's unlikely that the U.S.-China trade dispute is going to escalate to a full-scale war any time soon — but it's not impossible. Neither side is inclined to go to war with the other, but a war of that scale is what both plan to fight. All it would take is one bungled crisis, one itchy trigger finger, one malfunctioning automated defense system and the entire region could become a war zone.

China and the US could end up in a war - here's what would ...
