Harmonic Analysis: Beethoven Moonlight Sonata

Roman numeral analysis is a type of musical analysis in which chords are represented by Roman numerals (I, II, III, IV, ...). In some cases, Roman numerals denote scale degrees themselves. More commonly, however, they represent the chord whose root note is that scale degree. For instance, III denotes either the third scale degree or, more commonly, the chord built on it.

Roman numeral analysis - Wikipedia

Harmonic Analysis: First Steps The first steps to understanding harmonic analysis is understanding diatonic chords, both triads and 7th chords. Harmonic analysis uses Roman numerals to represent chords - upper-case for major and dominant, lower-case for minor and diminished. When we look at a piece of music we try to recognize the particular ...
