The book tackles the neglected topic of testimony and its significance in epistemology. There is a general tendency towards defining knowledge only in terms of what is "perceived" (i.e. using your 5 senses), this mode of thinking extends towards negating any value of knowledge stemming from testimony and/or logic.

Testimony: A Philosophical Study by C.A.J. Coady

Synopsis. The role of testimony in the getting of reliable belief or knowledge is a central but neglected epistemological issue. Western philosophical tradition has paid scant attention to the individual thinker's reliance upon the word of others; yet we are in fact profoundly dependent on others for a vast amount of what any of us claims to know. Professor Coady begins by exploring the nature and depth of our reliance upon testimony, addressing the complex definitional puzzles surrounding ...

The philosophy of testimony considers the nature of language and knowledge's confluence, which occurs when beliefs are transferred between speakers and hearers through testimony. Testimony constitutes words, gestures, or utterances that convey beliefs. This definition may be distinguished from the legal notion of testimony in that the speaker does not have to make a declaration of the truth of the facts. The role of testimony in acquiring belief and knowledge has been a relatively neglected philosophical

"Mats Wahlberg's Revelation as Testimony is extraordinary — extraordinary in its bold challenge to the widespread assumption by theologians that 'propositional revelation' is an untenable idea, extraordinary in the skill with which it employs recent discussions by philosophers to develop the idea of revelation as testimony, extraordinary in the cogency and lucidity of its argumentation. No responsible discussion of revelation henceforth — whether by theological liberals or by theological ...
