The Raising Of Predicates Predicative

The Raising of Predicates: Predicative Noun Phrases and the Theory of Clause Structure (Cambridge Studies in Linguistics) First Edition

Amazon.com: The Raising of Predicates: Predicative Noun ...

The Raising of Predicates: Predicative Noun Phrases and the Theory of Clause Structure Andrea Moro One of the basic premises of the theory of syntax is that clause structures can be minimally identified as containing a verb phrase, playing the role of predicate, and a noun phrase, playing the role of subject.

The Raising of Predicates: Predicative Noun Phrases and ...

Four distinct areas of syntax are unified into a unique natural class. Along with inverse copular sentences, existential sentences, sentences with seem and unaccusative constructions are analysed as involving the raising of a predicative noun phrase to the most prominent position in the clause structure.

The Raising of Predicates: Predicative Noun Phrases and ...

A predicative expression (or just predicative) is part of a clause predicate, and is an expression that typically follows a copula (or linking verb), e.g. be, seem, appear, or that appears as a second complement of a certain type of verb, e.g. call, make, name, etc. The most frequently acknowledged types of predicative expressions are predicative adjectives (also predicate adjectives) and ...

Predicative expression - Wikipedia

The predicate is the part of a sentence that tells us about the subject. At the heart of every predicate is a verb, and finding that is a good starting point for identifying the predicate. This page has lots of examples of predicates and an interactive test. It also explains why it's important to identify the predicate.

File Type PDF The Raising Of Predicates Predicative Noun Phrases And The Theory Of Clause Structure

A simple predicate is the verb or verb phrase with its objects, modifiers, etc. A compound predicate is a predicate with two or more verbs connected by and. A predicate adjective modifies the subject of a sentence. A predicate nominative is a predicate noun that completes a linking verb and renames the subject.

What is a Predicate? Definition, Examples of Sentence ...

A sentence cannot be complete (independent) unless it has both a subject and a predicate; otherwise, a group of words is just a phrase or a clause. For example, a complete sentence could be, "Go!" It has both a subject ("you", understood, is the subject, as the sentence is in the imperative voice) and a verb ("go").

Definition and Examples of a Predicate in a Sentence

In context|grammar|lang=en terms the difference between predicate and predicative is that predicate is (grammar) the part of the sentence (or clause) which states something about the subject or the object of the sentence while predicative is (grammar) an element of the predicate of a sentence which supplements the subject or object by means of the verb predicatives may be nominal or adjectival.

Predicate vs Predicative - What's the difference? | WikiDiff

Keywords Neg-Raising Æ Negative Polarity Items Æ Presupposition projection 1 Introduction There is a class of sentence-embedding predicates in English and many other languages, called Neg-Raising predicates, with a peculiar property. When negated, these predicates imply a corresponding sentence in which the negation takes scope in the ...

The raising of predicates : predicative noun phrases and ...

The complementation pattern of certain question-embedding predicates, such as know and agree, presents a puzzle for the compositional semantics of clausal complementation, as the predicates seem to be able to combine with two distinct types of semantic objects: propositions and questions. The traditional approach to the semantics of these predicates, where embedded questions are reduced to ...
